SAILORS TELL OF CRUELTY

HAWAIIANS ASSERT MATES BEAT THEM WITH BELAYING PINS—SAY MANGA REVA'S A BAD ONE.

PHILADELPHIA, Oct. 30.—Ten Hawaiians from the schooner Manga Reva called upon United States Commissioner Craig yesterday afternoon and asked to have their captain arrested for harsh treatment during the voyage from Honolulu to this port and refusal to pay their wages according to agreement. The schooner is unloading at Spreckels' sugar refinery.

Stories of cruel treatment were told by all the men many of them exhibiting scars and bruises which they told the Commissioner, had been inflicted by the mates. Iron spikes and belaying pins were used as instruments of torture, they said.

The strongest grievance of the men was that the shipping agreement, whereby they were to be paid \$25 a month, had been violated. They said that they had received only \$10 a month.

The seamen were told that nothing could be done for them until they had Captain Thompson and the mates of the craft arrested.

CANADIAN SEALERS ARRESTED.

OTTAWA, November 21.—Four Canadian sealers have been arrested at Montevideo.

TOO MANY CONSUMPTIVES AT THE JAIL

HIGH SHERIFF WILL TRY TO HAVE LEGISLATURE MAKE APPROPRIATION FOR NEW WARD.

High Sheriff Henry is strongly impressed with the necessity for segregating the consumptive and tubercular patients from other prisoners at the Oahu Prison.

"I believe," said the High Sheriff this morning, "that we ought by all means, to have a special tuberculosis hospital attached to the prison. It is absolutely necessary to segregate the prisoners afflicted with these disease from those not so affected. It is my intention to recommend that the legislature make an appropriation for the establishment and maintenance of such a place. We ought, as a matter of fact, to have an additional hospital at the jail. At the present time we have several sick wards in the upper story of the prison but that is not the proper place for a hospital."

"I see by the report for the United States penitentiary in Georgia that a tuberculosis hospital has been installed. That hospital is located outside and away from the regular hospital. The tuberculosis department consists of a number of canvas tents for the use of the patients during the day time and a glass house for them during the night. The cost of the tents for our use would be practically nothing, for I could have them made at the prison. The principal cost would be for the erection of the glass house. I have not figured out the probable cost of the new tuberculosis hospital, but it will not be very large."

"There are a great many prisoners, especially natives, who have been afflicted with the disease. Only recently I had to send one of the prisoners, an Hawaiian, out to the Home for Incurables. He had tuberculosis. The mortality records for the prison will show that for years the greater proportion of deaths from natural causes was due to tuberculosis. We could establish our tuberculosis hospital out near the new jail building."

The sheriff has had a number of photographs of the prison, showing the new jail and other interesting features of the place, taken for possible incorporation in his annual report to the attorney general.

SCHOOL PLANTS TREES.

On Kalahele's birthday the boys of Rev. Frank Fitz's school planted trees on the school grounds in Kaimuki, thus celebrating the day in a pretty and practical manner. The faculty and scholars closed the ceremony with the singing of "Hawaii Ponoi."

LAME BACK.

This ailment is usually caused by rheumatism of the muscles and may be cured by applying Chamberlain's Pain Balm two or three times a day and rubbing the parts vigorously at each application. If this does not afford relief, bind on a piece of flannel slightly dampened with Pain Balm, and quick relief is almost sure to follow.
